<u>Controlled Activity Details:</u>	
Type of Activity:	
Structure <input type="checkbox"/>	Crane <input type="checkbox"/>
Lighting <input type="checkbox"/>	Tower <input type="checkbox"/>
Other <input type="checkbox"/>	
Please Specify Other:	
Address of Proposal:	
Building Authority (Council) Reference Number:	

APPLICATION TO CARRY OUT CONTROLLED ACTIVITY

Specify Duration of the Proposal:	
Permanent: <input type="checkbox"/>	Short Term <input type="checkbox"/> (Three months or Less)
	Long Term <input type="checkbox"/> (Over Three months)
Commencement Date: <input type="text"/>	Completion Date: <input type="text"/>
Operating Hours (Temporary Structures):	<input type="text"/>
Purpose of the Activity:	<input type="text"/>
Location Coordinates (MGA94):	<input type="text"/>

For a controlled activity that consists of the erection of a building, structure or thing that may penetrate the protected airspace:	
Proposed Maximum Height in Australian Height Datum (AHD):	<input type="text"/>
The proposed maximum height (AHD) of any temporary structure or equipment intended to be used in the erection of the proposal:	<input type="text"/>
Ground Level Height (metres)	<input type="text"/>
Height of any existing structures (AHD)	<input type="text"/>

Please ensure construction plans are included with this application as well as any other relevant information that may assist in assessment.

The *Airports (Protection of Airspace) Regulations* stated that applications to carry out suspected controlled activities in the vicinity of aerodromes requires application to the applicable aerodrome for approval of the proposal prior to the construction being carried out.

Applications will be assessed for the impact on the aeronautical operations around aerodrome for current and future aircraft flight paths.

For more information on the controlled activities please visit the Department of Infrastructure and Transport website under aviation safety: <http://www.infrastructure.gov.au/aviation/safety/protection/index.aspx>
